Savannas Fishing:*

In St. Lucie County and Ft. Pierce, the Savannas fishing is famous. What was once prime fishing territory for fishermen who didn't mind roughing it a little has now been transformed into a beautiful and accessible wilderness area.

In 1963, the City-County Outdoor Recreation Committee of Fort Pierce and St. Lucie County created the Savannas Recreation Area.

In the beginning, the State Game and Fresh Water Commission stocked the Savannas with Bass and other compatible game fish. Today fishermen from the young to the young at heart can enjoy the fruits of their labor.

**A fishing license is required.*
